

## **PENSACOLA STATE COLLEGE DENTAL HYGIENE PROGRAM — EXCELLENCE IN ACTION**

The Dental Hygiene program offers a challenging 2-year curriculum meets the standards of our accreditation board, the Commission on Dental Association (CODA) while preparing students to master key competencies needed to become a dental hygienist. Our students receive essential hands-on training in the dental clinic where they serve approximately 1500 – 2000 members of the community annually. Our students also develop their communication and critical thinking skills while working with the public. We are proud to say that PSC Dental Hygiene Program graduates are knowledgeable, professional employees when they enter the workforce community.

### **Naming Opportunities**

Significant gifts to the college provide opportunities for donors to designate the name of a college facility or program in honor of the donor or another person. Scholarships, endowed chairs, lecture series, and faculty and staff awards programs are among the named gift opportunities, as are buildings or portions of buildings, including laboratories and conference rooms. Naming opportunities range from \$10,000 to \$5,000,000 and are offered in recognition of a single, tax-deductible, irrevocable gift or written pledge made over a specified period of time.

**“At CHNWF we look to hire extraordinary clinicians, those individuals who not only are skilled in their jobs but embrace and reflect the mission of CHNWF which is to provide quality health care to individuals regardless of race, religion, gender, sexual orientation or ability to pay. Pensacola State College prepares those students seeking a career in the healthcare industry by ensuring they have a solid foundation upon which they can build a career of caring for others.”**

From May 2017 to August 2018, a total of 1,755 patients were seen at the Dental Hygiene Clinic.
From May 2018 to August 2019, 2,000 patients were seen.

## YOU CAN HELP

### CAPITAL NEEDS:

Renovation of the dental classrooms and dental clinic would be beneficial for our students. Providing updated technology and simulators (mentioned above) in our classrooms and clinic will allow for students to have a well-rounded educational and “hands-on” experience and allow them to compete for positions where the most recent technology is used.

### STUDENT NEEDS:

In addition to academic scholarships, scholarships created for the purpose of helping working Dental Hygiene students to supplement their living expenses while attending school would be most beneficial.

## Equipment Needs

Quantity	Item	Cost
1	3 Subgingival Air Polisher	\$243.00
10	4-Kilgore Orthodontic Typodonts	\$243.00
7	4-Kilgore Darwin-Manikin Mounting System to allow students to practice intraoral skills	\$795.25
2	Human Skull Dexter	\$30,000
11	2-Kilgore Primary Typodonts	\$137.00
16	Pediatric X-Ray Dental Manikin	\$1,200.00
3	#2 Schick Sensor	\$7,000.00
